4 Month Software Testing Training Program for Aboriginal People in the GTA

Miziwe Biik is delivering a 4 month program in partnership with PLATO (Professional Aboriginal Testing Organization) and PQA (Professional Quality Assurance). PLATO and PQA are Canada's leading independent solution providers of quality assurance and software testing services.

Upon completing the program, you will be able to:

- Execute different types of functional tests
- Create clear defect reports
- Perform re-testing of fixed defects
- Create clear test planning and test cases
- Review system requirements
- Formulate testing estimates
- Analyse test results

Program Details:

- 4 months of classroom instruction (May to August)
- Class is Monday to Friday from 9am to 4pm

Program Requirements:

- Aboriginal (Status or Non-Status), Metis, and Inuit
- Grade 12 or Equivalent
- Keyboarding at 15wpm
- Interest in computers and technology
- Able to write basic reports
